Summary

I am a second-year Software Engineering student with a deep passion for frontend design and development. I thrive on creating visually appealing and user-friendly interfaces that provide seamless experiences. My journey in software engineering has fueled my interest in building end-to-end solutions, and I'm excited about the potential of becoming a full-stack developer in the future. With a focus on both design aesthetics and functionality, I'm always eager to learn new technologies and implement innovative ideas to build the future of software.

Education

BEng (Hons) Software Engineering

Currently pursuing a Bachelor's degree in Software Engineering.

University of Westminster, UK

Sep 2023 - Present

Foundation Certificate in Higher Education

Completed with Merit Pass.

Informatics Institute of Technology, Sri Lanka

Jan 2023 - Sep 2023

Primary and Secondary Education

Completed Ordinary Level (O/L) and Advanced Level (A/L).

Zahira College, Anuradhapura

2008 - 2021

Projects

Wakeel.lk (Academic Project) (www.wakeel.lk)

In Progress

- Developed Wakeel, a secure and transparent vehicle rental web app for Sri Lanka using Next.js, TypeScript, and Bun. Implemented secure payments, eKYC verification, AI-powered search, and a monorepo architecture for scalability.

Ticket Management System (Academic Project)

2024

- Developed a real-time event ticketing system using Angular and Spring Boot.
- Implemented multithreading for concurrent ticket releases and purchases.
- Ensured secure REST APIs and scalable design.

InHealth (Academic Project)

2023

- Developed and maintained the InHealth website, an online platform for medical and global health services.
- Implemented an online store for medical products.
- Ensured compliance with UN accessibility guidelines.

Work Experience

Eventure

The Event management Company

Founder

2024 Sep - Present

- Established and manage an event management company, overseeing event planning, vendor coordination, and client relations while driving growth initiatives.

IOS ZONE

Apple Product Retail shop

Founder

2019 Dec - Present

- Established and operate an Apple product retail business, handling sales, inventory management, and customer engagement to ensure a premium shopping experience.

Volunteering Experience

Hult Prize - Informatics Institute of Technology

Successfully financially supported the On-Campus Event at Informatics Institute of Technology.

Treasurer

2025 Jan - Present

- Concluded the event with 190+ teams, making it the first university to host a Hult Prize On Campus in Sri Lanka.

Stage Craft - Informatics Institute of Technology

Organized and managed the Stage Craft event at BMICH with 2500 attendees.

Volunteer

2024

- Coordinated various aspects to ensure seamless execution.

Cutting Edge - Informatics Institute of Technology

Coordinated logistics with the team to have a successful event.

Volunteer

2024

- Helped with the execution of final day event handling the tech stalls.

Skills

- Programming Languages: Java, Python
- Front-End Development: React, Next.js
- Back-End Development: Java, Next.js
- Version Control: Git, GitHub
- Other Tools: Postman
- Graphic Designing: Figma, Adobe Photoshop
- Soft Skills: Leadership, Team Player, Decision Making

Certifications

- Honours: Diploma in English.
- Merit: Foundation Certificate in Computing.

Languages

- English - Intermediate
- Tamil - Native
- Sinhala - Native
